DETAILED ACTION

In response to Request for Continued Examination filed September 28, 2007

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:
 - a. Claims 1 – 2 and 21 – 28 are allowable over the Prior Art of Record because it fails to teach or suggest a rotary ring for use in a scale reading apparatus comprising a pre-formed continuous flexible ring being sufficiently flexible to self retain, without any attachment device, about a circular machine part solely by elastic deformation of at least one portion in combination with the remaining limitations of the claims.
 - b. Claims 29 - 38 are allowable over the Prior Art of Record because it fails to teach or suggest a method of mounting a flexible rotary scale, in the form of a pre-formed continuous ring, onto a circular machine part, the method comprising the step of stretching or shrinking the flexible rotary scale onto the circular machine part such that the ring is retained without any attachment device in combination with the remaining limitations of the claims.

c. Claim 39 is allowable over the Prior Art of Record because it fails to teach or suggest a system for mounting a continuous flexible rotary ring for use in a scale reading apparatus onto a circular machine part, comprising a pre-formed continuous flexible rotary ring having scale markings provided on a surface thereof, wherein a tapered surface is provided on one or both of said circular machine part and said flexible rotary ring, and the tapered angle of said tapered surface is sufficient to form a self locking taper, without any attachment device in combination with the remaining limitations of the claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
